

## Job Title

Data Management Executive (3 Years Contract), STCC

## About STCC

The Singapore Translational Cancer Consortium (STCC) is a nationally coordinated consortium to synergise cancer research capabilities in Singapore. Established in 2020, STCC brings together unmatched basic, clinical and translational talent in Singapore to create globally significant peaks of excellence in selected Asian cancers. STCC's four joint platforms – Clinical Trials and Investigational Medicine Units, Cancer Database and Tissue Banks, Research-based Molecular Diagnostics, and Business Intelligence and Development Unit – provide an enabling research and innovation environment driven to foster translational research with meaningful outcomes for society. We currently have the following opening and would like to invite you to be part of an ongoing and dynamic team:

## About the role

### Responsibilities:

- Work with internal and external stakeholders in utilizing methodologies and systems for the management of data from multiple databases
- Liaise closely with vendors and business users in project implementation, application patches and upgrades in accordance with project methodologies and policies.
- Manage projects to ensure successful implementation by performing regular progress/performance monitoring
- Plan and coordinate end-user system training as and when required
- Provide on-going application support and data management
- Perform other duties as necessary or assigned

### Requirements:

- Degree in Computer Science, Computer Engineering or equivalent.
- Minimum 2 years' work experience in software development and maintaining applications using Microsoft.NET/Java Technologies.
- Minimum 2 years' hands-on experience with relational database.
- Ability to work on multiple projects involving multiple stakeholders concurrently.
- Able to work independently with minimal supervision.
- Good organizational and interpersonal skills.
- Experience in healthcare industry is an added advantage

## Company Overview

The Consortium for Clinical Research and Innovation Singapore (CRIS), a wholly owned subsidiary of MOH Holdings, was established in 2020 with the goal of strengthening synergies and promulgating strategies for national-level clinical research and translation programmes under the stewardship of the Singapore Ministry of Health. The former Singapore Clinical Research Institute Pte Ltd was repurposed to form CRIS which brings together five entities as business units under a common management and governance structure. These are the Singapore Clinical Research Institute (SCRI), the National Health Innovation Centre (NHIC), the Advanced Cell Therapy and Research Institute Singapore (ACTRIS), the Precision Health Research Singapore (PRECISE), and the Singapore Translational Cancer Consortium (STCC).
