

## Job Title

Pathologist/Pathologist Associate, STCC

## About STCC

The Singapore Translational Cancer Consortium (STCC) is a nationally coordinated consortium to synergise cancer research capabilities in Singapore. Established in 2020, STCC brings together unmatched basic, clinical and translational talent in Singapore to create globally significant peaks of excellence in selected Asian cancers. STCC's four joint platforms – Clinical Trials and Investigational Medicine Units, Cancer Database and Tissue Banks, Research-based Molecular Diagnostics, and Business Intelligence and Development Unit – provide an enabling research and innovation environment driven to foster translational research with meaningful outcomes for society. Through these forged collaborative relationships between local cancer research groups and by capitalising on the strengths of industry and academia, STCC is uniquely poised to develop initiatives that are aligned with Singapore's goals in value-based healthcare innovation and economic value creation.

## Work Purpose

Responsible for routine case selection from OT list for prospective consenting, collection and banking and perform histo-pathological QC on tissue samples being collected and stored in the Tissue Repository.

Tissue collection and processing in the Tissue Repository and assist requesters on their tissue request for research 2.

## Duties and Responsibilities

- Perform routine case selection for prospective consenting, collection and banking
- Liaise with surgeons seeking approval for tissue collection from their patients whenever necessary and seeking information from surgeons regarding doubtful cancer cases for bio-banking purposes and processing
- Perform histopathological QC on tissue samples being collected and stored
- Work with hospital staff on improving processes of tissue / biomaterial collection from the OT, and wards/clinics in the hospital; finding ways and means to reduce collection / ischemia times
- Assist Principal Investigators with pathological inputs for their research projects / publications
- Sieving out requisite tissue details from database to list out the tissues required for approved requests and going into the details of the Principal Investigators (PIs) requirements and ensuring tissues retrieved meet the PIs requirements including the site, histological diagnosis, percentage of tumour in the tissue and necessary clinical information
- Writing protocol amendments for IRB approval on new bio banking collaborations with other departments in NUH, amending consent forms and patient Information Pamphlet Sheet as per the protocol guidelines, necessary discussions and liaison with IRB approval

## Secondary Responsibilities and Duties

- Perform other duties as assigned by the Head / Senior Manager.

## Job Specification/Requirements

- Degree in MBBS (non-registrable foreign MBBS).
- Relevant pathological experience will be advantageous

## Working Location:

SingHealth Tissue Repository (STR) or National Cancer Institute, Singapore (NCIS)

## Company Overview

The Consortium for Clinical Research and Innovation Singapore (CRIS), a wholly owned subsidiary of MOH Holdings, was established in 2020 with the goal of strengthening synergies and promulgating strategies for national-level clinical research and translation programmes under the stewardship of the Singapore Ministry of Health. The former Singapore Clinical Research Institute Pte Ltd was repurposed to form CRIS which brings together five entities as business units under a common management and governance structure. These are the Singapore Clinical Research Institute (SCRI), the National Health Innovation Centre (NHIC), the Advanced Cell Therapy and Research Institute Singapore (ACTRIS), the Precision Health Research Singapore (PRECISE), and the Singapore Translational Cancer Consortium (STCC).
